

Who are the people in school supporting children with SEND?

At Village Infants' School we have a dedicated team who support all our pupils including pupils with SEND. In school we have:

- A qualified SENDCo
- Learning Support Assistants
- Specialist Support Assistants
- Specialist Support Assistants with autism training
- Specialist Speech and Language Practitioners

Outside agencies that we have access to include:

- Educational Psychologist
- Speech and Language Team
- School Nurse
- Child Development Team
- Children's Services
- Advisory Teachers for pupils with hearing or vision impairments

The Headteacher and SENDCo provide support in school for teachers and support staff working with pupils with SEND. The school also arranges for outside agencies to provide training and support as appropriate. Courses and training may be run in school or involve attending other settings.
