

Personal Statement

Staff Governor

Richard Wells – School Caretaker, Special Support Assistant and Mid Day Assistant.

I have been working at Village Infants for 12 years as a School Caretaker and over the past 7 years have taken on additional responsibilities within the school, which I believe will make me an effective Governor. I have a strong understanding of the day-to-day operations and how the school functions. My additional roles include Mid Day Assistant, Special Support Assistant, and Teaching Assistant.

Throughout my time at Village, I've developed positive relationships with parents, staff, and pupils. I also have extensive knowledge of the building trade, which has been beneficial when working with the school and contractors. I am detail-oriented and enjoy problem-solving and investigating issues. I've successfully managed various situations, including difficult conversations with contractors. Over the past 5 years I have developed my knowledge in Teaching and Learning in my roles of Special Support Assistant and Teaching Assistant. I have worked with many different teachers which has provided me additional insight in the curriculum and educational side of the school. In my role, I am always committed to putting the school's needs first.

I am aware the school is facing financial challenges and would be keen to explore ways to support the school in generating and saving additional funds.
