

## **Personal Statement: Cllr Muazzam Ali Sandhu**

I am deeply committed to ensuring that every child receives the best beginning in life through a safe, caring, and inspiring school environment. Having proudly served as a School Governor at Parsloes Primary School and Grafton Primary School, as well as Governor of Waltham International College, I bring well-rounded experience across both early years and further education. This has strengthened my understanding of progression, aspiration, and the importance of building strong foundations in a child's earliest years.

With over two decades of experience as a solicitor, community leader, and councillor for Barking and Dagenham, I offer strong governance skills, strategic leadership, and a thorough understanding of safeguarding, compliance, and accountability. My legal qualifications and advocacy background equip me with the ability to analyse policy, uphold standards, and support senior leadership in making decisions that truly benefit pupils.

Throughout my career, I have championed equality, inclusion, and the rights and wellbeing of children and families. I am especially passionate about early years growth, emotional development, and education – because these years shape confidence, character, and future opportunity. I believe every child, regardless of their background, deserves to feel valued, inspired, and empowered to achieve their full potential.

It would be an honour to join the governing body and work collaboratively with staff, parents, and the wider community. Together, we can continue to nurture a joyful, compassionate, and high-achieving environment where our youngest learners feel safe, supported, and excited to grow and discover the world around them.
