

Personal Statement: Joe Lynch

My name is Joe Lynch, I am 21 years old and I currently work full time in a barristers chambers while studying for my law degree. Outside of work, I am active in local politics where I am very passionate about improving the lives of local residents. I am also a Cadet Force Adult Volunteer in the Royal Air Force Air Cadets where I am currently going through the process to commission as an Officer. I am also very active in the world of grassroots football. I am a local referee, referee mentor, member of Essex FA's Youth Forum and the youngest ever member of the national FA's Regional Discipline Panel. I also have a keen interest in History and promoting democratic engagement in schools."

I don't mind getting involved in anything really, I do have good connections around History and some experience with safeguarding. Let me know where you'd like to put me.
